## LX2000

IP 43

Miniaturized turntable and tiltable downlight. This pleasant accent lighting fixture, leaves a lot of creative scopes for different lighting situations. This spotlight for metal halides 20 Watt, 35 Watt and 70 Watt commands an extraordinarily tilting range of almost 90°.

The systematic use of electronic control gear combined with modern small metal halides lamps reduces the heat in shops. CDM new technology allows a higher luminous flux than conventional discharge lamps.

Completely made of die-cast aluminium. Safety tempered protection glass.

Easy and fast maintenance. "Clip-on" concept, for easy bulb replacement.

## LX2000

20W - G 8,5

IP43

CE ▽

- HIT-CRI BASE G 8,5
- 230 VOLTS - 20 WATT
